VISION: MAKE PROJECT FAILURE OBSOLETE

Each year, thousands of projects fail causing severe financial burdens, blown out budgets, man hours lost and in all cases unnecessary conflict between staff. The good news, it's not too late to change. We must change how we see project management from its foundation and understand why projects fail.

*When projects go over budget, **they fail.***
*When projects don't finish on time, **they fail.***
*When projects don't meet the specifications, **they fail.***
*When the specs fall out of alignment from the business case, **they fail.***

MISSION: DELIVER THE FUTURE INTO THE PRESENT

We prevent these dimensions of project failure by choosing influential leaders who can navigate complex company cultures and proactively identify predictable points that lead to project failure.

• How do we accomplish this?

We prevent project failure because we listen to our clients. We have a conversation and find the root cause of their problems. Then as a trusted partner work together on the solution.

• What does that mean to you?

We are experts in providing the best Project Management Solutions and delivering top strategies that deliver change to our clients. Project Assistants will accelerate and streamline your innovation allowing your organizations vision to become reality. We change to way you change.

"ANY PROJECT CAN FAIL WITHOUT A STRATEGY TO ENSURE THEY SUCCEED"

GUS CICALA
 CEO & Thought Leader

NOTABLE STATS

- 68%** of all projects fail w/o Project Assistants (PA)
- 50%** Increase w/ PA - Project Execution
